## (二) Chia-Chun Hou, DVM, PhD; 侯佳君 獸醫師

佳恩動物醫院 侯佳君 院長

亞洲大學 獸醫系 兼任助理教授

Owner (Dermatology/Internal Med), Prestige Veterinary Clinic, Hsinchu, Taiwan

Visiting Assistant Professor, Asia University, Taiwan

### Speaker Bio/

After receiving veterinary degree from National Taiwan University, Dr. Hou pursued her postgraduate study at University of Edinburgh researching in immunological changes of atopic dogs undergoing allergen-specific immunotherapy, with which she obtained her PhD in 2007. After practicing for a decade in Taipei, in 2017, Dr. Hou established her own clinic in Hsinchu, focusing on canine and feline dermatology, internal medicine, endocrine disorders and immune-related conditions. Dr. Hou enjoys speaking and sharing knowledge outside of her clinical work, she also teaches dermatology as a visiting assistant professor at Asia University.

Dr. Hou believes that detailed history is often the baseline for establishing an accurate diagnosis, especially, when it comes to dermatology cases. She is passionate about sharing her unique experiences and tips for collecting all the relevant clinical clues, putting it together to solve a complexed medical puzzle. Urine analysis is very often a critical piece of clinical data that had been overlooked, she hopes to bring more awareness about urine analysis through her sharing.

### 七、報名費用：
